**April 17th 2020: What Seniors Need to Know
about the Science of THC, CBD, and Cannabis**

This episode of the Living to 100 Club Radio program explores the expanding use of cannabis and CBD for medicinal use, especially among older adults. Are seniors using cannabis to replace other prescriptions? Will cannabis become a daily use product like vitamins for the elderly? What is the science behind cannabis? How is THC, the active agent in marijuana, different from CBD? And what is the science of edibles and usage of cannabis for older adults? Our guest, Wayne Schwind, will discuss these and other questions in this program. Wayne is the owner and founder of Periodic Edibles, the Cannab

Featured Guest

Wayne Schwind

Wayne Schwind is the owner and founder of Periodic Edibles, the Cannabis Caramel Company, and is now the #1 producer and seller of cannabis caramels in Oregon. He has a background in chemical engineering and water chemistry, useful in developing and researching the science behind this business. He hosts a podcast focusing on the business and science of cannabis, with an inside look at operating a cannabis business for "budtenders" working in dispensaries, along with the latest science of cannabis science research. His podcasts have now been downloaded over 300,000 times, and he has sold almost a half-million cannabis caramels.
