June 17th 2021: The Future of Innovation

Episode two of the North Star explores the future of innovation from a variety of perspectives. Guest and renowned scholar, researcher, and entrepreneur Vivek Wadhwa joins host William Ulrich to share his insights on a variety of topics linked to innovation, technology advancements and the future. The episode will explore how organizations, particularly large legacy businesses, can innovate in a world of intense competition that can emerge from all quarters, including new startup companies. Vivek will discuss how large, legacy companies can leverage the benefits of incumbency to create new mar
