Ever wonder why you get crazy when the one you love is near? Ever wonder why you crave physical connection? Liz Langly, author of Crazy Little Thing: Why Love and Sex Drive Us Mad will be joining me to share insights on the mysteries of love and sex. She's going to help us understand more about sexual attraction. Thing like why one person falls in love with the moment they see you, but yet another has no interest. I always believe it comes down to biology- hormones rule. We'll see if she agrees in this sexy, geeky, interview where you'll learn that there is a whole lot more to love sick
