October 3rd 2012: The 9/11 Great Circle, Sacred Geometry Ley Line Grids, and the Masonic Garden that Encodes Them with Kevin McMahon

Working with Google Earth, Kevin McMahon has found a number of remarkable synchronicities that show incredible interconnectedness, sacred geometry and number across the natural landscape of the planet as well as some strategically placed man made structures. One of the most remarkable is the International Peace Garden placed in the middle of nowhere on the Manitoba/North Dakota border which reflects a Washington Mall like encodement on a critical power spot in the landscape. Kevin will discuss many of his fascinating findings. www.peacegardensecrets.com

Featured Guest

Kevin McMahon

Kevin McMahon started investigating ley line grids and their connection to Masonic design early in 2012. He has since published a series of videos showing connections between sacred geometry encoded in city grids, gardens, and the physical geography of the continents. He's been interested in maps and the landscapes they represent his whole life and ended up minoring in geography in university. Recent synchronicities and the powerful exploratory technology of Google Earth have allowed him to uncover these connections that are completely unacknowledged in what we are taught. www.peacegardensecrets.com
