October 3rd 2012: Is Your Medicine Killing You?

The drug companies aren't telling us something very important and your doctor doesn't seem to want you to know... according to the Life Extension Foundation, the estimated total number of deaths induced inadvertently by a physician or surgeon or by medical treatment or diagnostic procedures—in the US annually is close to 800,000. This would indicate that the medical system is itself the leading cause of death and injury in the US. Something is wrong when regulatory agencies pretend that vitamins are dangerous, yet ignore published statistics showing that conventional medicine is the real hazard.
