July 30th 2013: Cyber-Insurance Explained

With a heightened awareness of regulations regarding a company's liability for data breaches and the very real threat of cyber-attacks, every organization is looking for a new way to protect itself from the significant fines and penalties that can arise from a data breach. Cyber-insurance is an important tool in the new arsenal of risk mitigation. Join us as two experts in the field discuss what types of cyber-insurance are available, what considerations every business has in determining the most appropriate type of coverage, and how cyber-insurance fits into a comprehensive risk management
