[VIEW HOST PAGE](#)

Tammy Lambert is diagnosed with schizoaffective disorder and is coping with delusional symptoms and mood instability. Sherri Matsumoto, who now lives with schizophrenia, was first diagnosed with mental illness as a teenager, but her first diagnosis was not schizophrenia. They highlight their own experiences of living with schizoaffective disorder and schizophrenia. They talk about their work creating hope for people living with schizoaffective disorder and schizophrenia. They discuss the challenges faced by people and their families living with schizoaffective disorder or schizophrenia, and th

[Read more](#)
